

Top-of-the-range neoprene delivering an excellent wide-ranging chemical protection

- In environments where mechanical risks are combined with chemical exposure, the comprehensive all-round range of robust Neoprene 09-series gloves provide an optimal defence against oils, acids, caustics, alcohols and many solvents incorporating a good resistance to all mechanical hazards.

Industries

- Metal fabrication
- Chemical

Applications

- Foundry operations
- Handling materials with sharp or rough edges
- Extruding, bending and punching shapes
- Processing sheets, coils, tubes
- Fabricating metal parts, glass sheets
- Unexpected leakages spills or other releases

Key Features

- Special Hi-Lo insulated gauntlet option with quilted cotton liner, for use in both hot and cold temperatures. Permits intermittent handling in hot liquids up to 180°C and handling in cold temperatures down to -25°C
- Comfortable anatomical glove shape which follows the contours of the hand at rest. Improves dexterity and reduces hand fatigue
- Smooth finish offering excellent broad-spectrum chemical resistance, while also featuring the cotton lining that enhances puncture and snag resistance
- Caution: Do not use the 09-022 gloves in applications above 180° C (400F).

Sensitisers

- Diphenyl guanidine
- Diphenyl thiuram urea

Only a very small number of users may be sensitive to this ingredient(s) and hence may develop irritant and/or allergic contact reactions.
