This product group is classed as Personal Protective Equipment (PPE) by the European Regulation (EU) 2016/425 and under UK law as amended. It has been shown to comply with EU and UK law through appropriate testing to EU Harmonised European Standards and UK Designated Standards. The product group has been assessed to: EN ISO 21420:2020, EN388:2016+A1 2018 to the Intermediate Design standard (Category 2).

CAREFULLY READ THESE INSTRUCTIONS BEFORE USING THIS PRODUCT

THE PRODUCT – General purpose, machine knitted 13 gauge white **Nylon** glove with a single application of a PVC dot grip to the palm. No materials or processes used in the product's manufacture is known to be harmful to the Wearer.

No PPE item provides full protection, and care must always be taken when carrying out the risk related activity

PERFORMANCE AND LIMITATIONS TO USE – This product has been tested in accordance with the requirements of EN388:2016+A1 2018, and the results are indicated to follow. For each test within the scope of the EN388:2016+A1 2018, the performance range is indicated (in brackets).

EN388:2016+A1 2018 – Mechanical Hazards

1141X

Abrasion resistance	Level 1	(0-4)
Circular blade cut resistance	Level 1	(0-5)
Tear resistance	Level 4	(0-4)
Puncture resistance	Level 1	(0-4)
TDM cut resistance	Level X	(A-F)

Protection levels are measured from the palm area of the glove.

ADVISORIES FOR EN388:2016 MECHANICAL RISKS

Due to the achieved tear resistance result, ideally these products should not be worn in environments where there is the risk of entanglement by moving parts of machines.

FITTING AND SIZING - Ensure a suitable hand size is selected when donning / doffing the product. This product is seamless in design therefore no further adjustment is necessary. The size of the product is marked on the glove and they are available in hand sizes **6, 7, 8, 9, 10 and 11**, as defined by EN ISO 21420 2020.

STORAGE AND OBSOLESCENCE – Store in original packaging where possible in a dry and cool environment. Shelter from direct light sources. Gloves should ideally be stored at 5 - 25°C. When stored as recommended gloves will not suffer change in mechanical properties for up to three years from the date of manufacture.

COMPATIBILITY - To optimise protection, in some instances it may be necessary to use these products with suitable boots/headwear or workwear. In this case, before carrying out the risk related activity, consult your supplier to ensure that all your protective products are compatible and suitable for your application.

IN USE - If the product becomes worn or damaged it will **NOT** provide the declared protection, and it should be immediately replaced without further use. Do not reverse (turn inside out) the product for use as PPE. Do not use the product in any way other than as hand protection. To preserve hand hygiene, communal use is not recommended.

MAINTENANCE AND CLEANING – The product will not require any additional maintenance during its working life. Check the product's internal and external surfaces for any signs of wear, damage or soiling before commencing use. The product is not suitable for laundering or dry cleaning. If the product becomes too worn, damaged or soiled, then it should be replaced.

LIMITATION OF USE / RISK – Gloves are intended to protect hands in working environments in accordance with EN ISO 21420:2020 and EN388:2016+A1:2018. The user shall evaluate and determine risks based on intended application and use gloves only in the intended application. Risk should be evaluated keeping in mind the afforded protection levels and the harmonised standards on which the gloves are tested. The described gloves have been evaluated by testing to EN388:2016+A1 2018 and covers all reasonably foreseeable risks.

GENERAL – The results of the tests should help in glove selection, however it must be understood that actual conditions of use cannot be simulated and it is the responsibility of the user, not the manufacturer to determine glove suitability to the intended use. Service life cannot be specified and depends on the application.

The Declaration of Conformity for this product can be downloaded at www.r-glover-ascroft.com/product-range

MARKINGS - The product is marked with:

1. The Authorised Representative's Trade Mark - "RGA" and address details.
2. The UKCA and CE marks, showing that the product meets the requirements of the PPE Regulation in both markets
3. The Product's article number and hand size
4. A pictogram indicating the product meets the requirements of EN388:2016+A1 2018
5. The Company's Website URL where documented information for the product can be downloaded.
