

USER INFORMATION SHEET

Applicable to products: TPG, TPGE series

Economic Operator	Role	Identifier	Address	Post Code	Country
R. Glover Ascroft Ltd.	Authorised representative	EORI GB220731409000	Enfield	EN3 6AW	UK
SATRA Technology Centre	UKCA certification	Approved Body 0321	Kettering	NN16 8SD	UK
SATRA Technology Europe	CE certification	Notified Body 2777	Dublin	D15 YN2P	Eire

This product group is classed as Personal Protective Equipment (PPE) by the European Regulation (EU) 2016/425 and under UK law as amended. It has been shown to comply with EU and UK law through appropriate testing to EU Harmonised European Standards and UK Designated Standards. The product group has been assessed to: EN ISO 21420:2020, EN388:2016+A1 2018, EN407:2020 to the Intermediate Design standard (Category 2).

CAREFULLY READ THESE INSTRUCTIONS BEFORE USING THIS PRODUCT

THE PRODUCT – These protective gloves are intended for use in environments where contact heat and convective heat are the main hazards. The products will provide protection when handling hot objects to 250°C and will also offer cut resistance protection.

No PPE item provides full protection and care must always be taken while carrying out the risk related activity.

PERFORMANCE AND LIMITATIONS TO USE - When tested in accordance with the requirements of EN388:2016+A1 2018 and EN407:2020, the product achieved the following performance levels:-

EN388:2016+A1 2018 – Mechanical Hazards

0X4XC

Abrasion resistance	level 0	(0-4)
Circular blade cut resistance	level X	(0-5)
Tear resistance	level 4	(0-4)
Puncture resistance	level X	(Not tested)
TDM cut resistance	level C	(A-F)

X2XXXX

EN407:2020 - Thermal Risks

Limited Flame Spread	X	(Not tested)
Contact heat	2	(0-4)
Convective heat	X	(Not tested)
Radiant heat	X	(Not tested)
Small molten metal splash	X	(Not tested)
Large molten metal splash	X	(Not tested)

ADVISORIES FOR EN388:2016 MECHANICAL RISKS

Due to the achieved tear resistance result, ideally these gloves should not be worn in environments where there is the risk of entanglement by moving parts of machines. Due to the product's knitted construction, do not use this product where there is the risk of a stab injury.

ADVISORIES FOR EN407:2020 THERMAL RISKS

Do not use this product in the presence of naked flames, radiant heat sources, and where there is the potential for contact with hot liquids and steam.

FITTING AND SIZING - This product is ambidextrous and may be worn for use on either hand. The product is available in hand size 10 only, and no further adjustment is possible. Check that this hand size can accommodate the donning / doffing process satisfactorily before using the product.

STORAGE AND OBSOLESCENCE - When stored in dry conditions in its original packaging, the product will not suffer from any changes in physical properties for up to 5 years from date of manufacture. To avoid colour fade, keep the product away from direct sunlight.

COMPATIBILITY - To optimise protection, in some instances it may be necessary to use these products with suitable boots/headwear or workwear. In this case, before carrying out the risk related activity, consult your supplier to ensure that all your protective products are compatible and suitable for your application.

IN USE - If the product becomes worn or damaged it will **NOT** provide the declared protection, and it should be immediately replaced without further use. Do not reverse (turn inside out) the product for use as PPE. Do not use the product in any way other than as hand/arm protection. To preserve hand hygiene, communal use is not recommended.

MAINTENANCE AND CLEANING - The product will not require any additional maintenance during its working life. Check the product's surface for any signs of wear or damage before commencing use. The product is not a suitable candidate for laundering or dry cleaning. If the product becomes too soiled for use, then it should be replaced.
